A Good Deal On A Great Tire™ is an accurate description of Kelly® commercial truck tires. The value of the Kelly brand is evident in the miles of original tread life and tough casings that can usually be retreaded multiple times for additional miles of service. Kelly commercial tires are also backed by a nationwide limited warranty and are available for all types of commercial applications.* You can find these popular commercial tires at Kelly Dealers and many truck stops across the country.

*See pages 6–7 for more details.

**LONG HAUL TIRES**

### KLS™

**Steer/All-Position Tire.**
- 18/32” tread depth and five-rib construction offer even wear and many miles to removal.
- Lateral grooves and rib edge sipes help enhance traction in wet, icy and snowy conditions.
- Tread compound for long haul steer applications offers great handling and many miles to removal.
- Pressure distribution grooves help promote even wear and tear resistance.
- Four-belt construction helps enhance toughness and tire life.

### KDA®

**Drive Tire.**
- Unique shoulder design helps promote traction and uniform treadwear.
- Deep 28/32” tread depth helps provide long original tread life.
- Tread radius helps distribute pressure evenly over the footprint for uniform treadwear and long tread life.
- Stone ejectors help resist casing damage.
- Unique blading pattern enhances the performance and appearance as the tire begins to wear.
- All-steel casing and belts enhance toughness and help increase casing life.

LONG HAUL TIRES

**KTSA®**

**Trailer Tire.**
- Mono-groove tread design helps promote even wear and helps evacuate water from the tread for enhanced wet traction.
- Unique center groove design helps resist stone drilling and cracking.
- Low tread void helps provide long mileage, enhanced braking and even wear.
- Decoupling groove helps minimize shoulder wear for many miles to removal.
- Penetration protectors help resist cuts and punctures to enhance retreadability.

**Kelly KRH®**

**All-Position Rib Tire.**
- Deep 20/32” tread helps provide long original tread life.
- Tread pattern enhances traction on wet and dry roads.
- Belt package offers even wear with less scrub.
- Rib pattern helps promote uniform wear.
LIMITED WARRANTY
United States and Canada

WHO IS ELIGIBLE FOR WARRANTY COVERAGE?
You are eligible for the benefits of this limited warranty if you meet all of the following criteria:
- You are the owner or authorized agent of the owner of new Kelly® medium radial truck tires.
- Your tires bear Department of Transportation (DOT) prescribed tire identification numbers and are not branded “NA” (Not Adjustable).
- Your Kelly medium radial truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer’s or Kelly’s recommendations.
- Your tires were purchased on or after January 1, 2013.

WHAT IS COVERED AND FOR HOW LONG?
1. FREE TIRE REPLACEMENT – Kelly medium radial truck tires covered by this warranty that become unserviceable due to a covered warranty condition during the first 2/32” (inch) treadwear or 12 months from date of purchase, whichever comes first, will be replaced with a comparable new Kelly medium radial truck tire without charge. You pay only for the mounting and balancing. (Without proof of purchase, date of manufacture will be used to determine eligibility.)

2. PRORATED TIRE REPLACEMENT – Tires worn beyond the first 2/32” (inch) treadwear that become unserviceable due to a covered warranty condition will be replaced on a prorated basis. You are responsible for mounting, balancing and any additional services you order at the time of adjustment, as well as any taxes and government-mandated charges.

HOW WILL THE PRORATED CHARGES BE CALCULATED?
The replacement price will be calculated by multiplying the current Kelly advertised selling price, at the adjustment location, by the percentage of usable original tread that has been worn off at the time of adjustment. You pay for mounting, balancing, an amount equal to the full current Federal Excise Tax (U.S. only) and any other applicable taxes for the comparable new Kelly replacement tire as well as any government-mandated charges.

EXAMPLE:
If your disabled tire had an original 16/32” (inch) of usable tread depth and is worn to 8/32” (inch) of usable tread remaining, you have used 50% and therefore must pay 50% of the advertised selling price of a comparable tire, plus an amount equal to the full current Federal Excise Tax (U.S. only) applicable to the comparable new replacement tire at the time of adjustment. If the price of the comparable tire is $400.00, the cost to you would be $200.00, plus Federal Excise Tax (U.S. only), mounting, balancing, any other applicable taxes and government-mandated charges.

<table>
<thead>
<tr>
<th>Amount Of Tread Used</th>
<th>X</th>
<th>Value Of Comparable Tire =</th>
<th>Prorated Price Of New Tire</th>
</tr>
</thead>
<tbody>
<tr>
<td>Original Tread</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(Plus FET [U.S. only], other applicable taxes, government-mandated charges and mounting and balancing.)

WHAT IS A COMPARABLE TIRE?
A “comparable” new Kelly medium radial truck tire may be either the same line of tire or, in the event that the same tire is not available, a tire of the same basic construction and quality with a different sidewall or tread configuration. If a higher-priced tire is accepted as replacement, the difference in price will be at an additional charge to you.

Any replacement tire provided pursuant to this warranty will be covered by the Kelly warranty in effect at the time of replacement.

WHAT IS NOT COVERED UNDER THIS LIMITED WARRANTY?
- Wear conditions or tire damage due to road hazards (including punctures, cuts, snags, impact breaks, etc.), wreck, collision, fire, fast wear, irregular wear, heel and toe wear or other wear conditions.
- Improper inflation, overloading, high-speed spinup, misapplication, misuse, negligence, racing, chain damage or improper mounting or demounting.
- Mechanical condition of the vehicle.
- Chip/chunk conditions on tires intended for highway service.
- Ride disturbance after the first 2/32” (inch) treadwear or due to damaged wheels or any vehicle condition.
- Any tire intentionally altered after leaving a factory producing Kelly tires to change its appearance (example: white inlay on a black tire).
- Tires with weather cracking which were purchased more than four (4) years prior to presentation for adjustment. If you have no proof of purchase date, tires manufactured four (4) or more years prior to presentation are not covered.
- Material added to a tire after leaving a factory producing Kelly tires (examples: tire fillers, sealants or balancing substances). If the added material is the cause of the tire being removed from service, the tire will not be adjusted.
- Tires removed from service due to improper repairs.
- Loss of time, inconvenience, loss of use of vehicle, incidental or consequential damage.

Note: Some states or provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This limited warranty is applicable only in the U.S. and Canada.
WHAT IS THE RADIAL MEDIUM TRUCK TIRE CASING PROVISION?
Kelly medium radial truck tires will be warranted for covered conditions through the first retread for a period of four (4) years from the date of the casing DOT serial number or proof of purchase, if available.
If retreaded by a Goodyear® Authorized Retreader, casings will be warranted for covered conditions for an unlimited number of retreads for a period of four (4) years from the date of the casing DOT serial number or proof of purchase, if available.
Casing values are based on the predetermined casing value at the time of adjustment. See your servicing Dealer for these values.

HOW DO YOU OBTAIN AN ADJUSTMENT?
A. You must present the tire to be adjusted to an authorized Kelly Commercial Tire Retailer. Please consult your telephone directory or Kellytires.com/truck for locations. Tires replaced on an adjustment basis become the property of The Goodyear Tire & Rubber Company or Goodyear Canada Inc.
B. You must pay for taxes or any additional service you order at the time of adjustment.
C. No claim will be recognized unless submitted on a Kelly claim form (supplied by a Kelly Commercial Tire Retailer) that is completely filled out and signed by you, the owner of the tire presented for adjustment, or your authorized agent.

WHEN DOES THE WARRANTY END?
Kelly medium radial truck tires have delivered the full original tread life and the new tire coverage of this warranty ends when the treadwear indicators become visible or four (4) years from the date of original tire manufacture or new tire purchase date (whichever occurs first). Without proof of purchase, date of manufacture will be used to determine eligibility. Casings may continue to be warranted beyond the new tire coverage. Please refer to the “WHAT IS THE RADIAL MEDIUM TRUCK TIRE CASING PROVISION?” section for warranty details on casings.

HOW DO YOU KNOW WHEN YOUR TIRES WERE MANUFACTURED?
Tires with a DOT number ending with 1811 or greater were manufactured after 05/01/2011 (1811 refers to the 1st week of May 2011). These tires are covered under the provisions of this warranty.

WHAT ARE YOUR LEGAL RIGHTS?
This warranty gives you specific legal rights, and you may also have other rights that vary from state to state and province to province. Note: No Representative or Dealer has authority to make any representation, promise or agreement on behalf of Kelly except as stated herein.
Any tire, no matter how well constructed, may fail in service or otherwise become unserviceable due to conditions beyond the control of the manufacturer. Under no circumstances is this warranty a representation that a tire failure cannot occur.
DISCLAIMER: THIS WARRANTY IS IN LIEU OF, AND GOODYEAR HEREBY DISCLAIMS, ANY AND ALL OTHER WARRANTIES AND REPRESENTATIONS, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND NO OTHER WARRANTY OR REPRESENTATION OF ANY KIND IS MADE BY GOODYEAR OR SHALL BE IMPLIED BY LAW.
LIMITATION OF DAMAGES: IN NO EVENT AND UNDER NO CIRCUMSTANCE SHALL GOODYEAR BE LIABLE TO THE BUYER FOR ANY INDIRECT, SPECIAL, INCIDENTAL, CONSEQUENTIAL, LOST PROFIT, LOSS OF BUSINESS, LOSS OF GOODWILL OR REPUTATION, PUNITIVE OR OTHER DAMAGE, COST (INCLUDING FOR REPLACEMENT TRANSPORTATION, EXPENSE OR LOSS OF ANY KIND. SOME STATES AND PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.

SAFETY WARNINGS
Property damage, serious injury or death may result from:
• TIRE FAILURE DUE TO UNDERINFLATION/OVERLOADING/MISAPPLICATION. Follow the vehicle owner’s manual or tire placard in the vehicle.
• TIRE FAILURE DUE TO IMPACT DAMAGE/IMPROPER MAINTENANCE. Tires should be inspected regularly by a qualified technician for signs of damage, such as punctures or impacts.
• TIRE FAILURE DUE TO IMPROPER REPAIRS. See Rubber Manufacturers Association (RMA) established repair procedures at www.rma.org and/or go to www.goodyear.com/truck for information on proper repair procedures.
• EXPLOSION OF TIRE/RIM ASSEMBLY DUE TO IMPROPER MOUNTING. Only specially trained persons should mount tires. When mounting tires, use safety cage and clip-on extension air hose to inflate.
• FAILURE TO MOUNT RADIAL TIRES ON APPROVED RIMS.
• FAILURE TO DEFLATE SINGLE OR DUAL ASSEMBLIES COMPLETELY BEFORE DEMOUNTING.
• TIRE SPINNING. On slippery surfaces such as snow, mud, ice, etc., do not spin tires in excess of 35 mph (56 kph), as indicated on the speedometer.
• EXCESSIVE WHEEL SPINNING. This can also result in tire disintegration or axle failure.

FOR SERVICE ASSISTANCE OR INFORMATION:
1. First contact the nearest Authorized Kelly Commercial Tire Retailer.
2. If additional assistance is required:
   • In the U.S., write to –
     Kelly Customer Assistance Center
