WHAT IS THE RETREAD CREDIT WILL BE DETERMINED WHEN THE CASING BECOMES UNSERVICEABLE DUE TO A COVERED WARRANTY CONDITION?
Full credit for the retreading or repair costs will be issued, based on the current retail selling price of the retread during the first 2/32” (inch) (or the first 25% for UniCircle® retreads) of usable treadwear if the casing becomes unserviceable within the coverage period due to a covered warranty condition.

Retreading costs that are not eligible for full credit will be prorated. The replacement price will be calculated by multiplying the current Goodyear retail selling price of the retread by the percentage of usable tread remaining at the time of adjustment.

You must pay for mounting, balancing, applicable taxes, government-mandated charges and any additional services you order at the time of adjustment.

EXAMPLE:
If your disabled tire had an original 16/32” (inch) of usable tread depth and is worn to 8/32” (inch) of usable tread remaining, you have used 50% and therefore must...
pay 50% of the advertised selling price of a comparable retread tire. If the price of the comparable tire is $150.00, the cost to you would be $75.00 plus mounting, balancing, any other applicable taxes and government-mandated charges.

\[
\text{Amount Of Tread Used} \times \text{Value Of Comparable Tire} = \text{Prorated Price Of New Tire}
\]

(Plus applicable taxes, government-mandated charges, and mounting and balancing.)

**WHAT IS THE COVERAGE ON GOODYEAR® AUTHORIZED RETREADER REPAIRS AND RETREADS?**

Every retread/repair performed by a Goodyear Authorized Retreader on any radial casing using Goodyear authorized retread/repair materials and bearing a valid Department of Transportation (DOT) shop number of the Authorized Retreader is warranted to be free from a covered warranty condition and to give satisfactory service under normal operating conditions for the usable tread life of any retread.

Full replacement of the retread or repair costs will be issued, based on the current retail selling price of the retread or repair during the first 2/32” (inch) (or the first 25% for UniCircle® retreads) of usable treadwear if the retread or repair becomes unserviceable due to a covered warranty condition.

If a retread or repair becomes unserviceable due to a covered warranty condition beyond the no-charge period, a credit will be issued on a prorated basis. The credit will be determined by multiplying the current Goodyear retail selling price of the retread by the percentage of usable tread remaining at the time of adjustment.

You must pay for mounting, balancing, applicable taxes, government-mandated charges and any additional services you order at the time of adjustment.

**IN ADDITION:**

Radial casing allowances will be given on all qualifying radial retreaded casings if the retread became unserviceable due to a covered warranty condition.

In cases where the retread became unserviceable due to a covered warranty condition and the casing is outside the terms of this warranty, a credit for the retread only will be calculated.

All credits must be used toward the purchase of new or retreaded Goodyear, Cooper®, Dunlop®, Roadmaster® or Kelly® products.
