WHO IS ELIGIBLE FOR WARRANTY COVERAGE?
You are eligible for the benefits of this limited warranty if you meet all the following criteria:
• You are the owner or authorized agent of the owner of a new Goodyear® Unisteel radial light truck or medium radial truck tires, including mud and snow and on/off-road tires.
• Your tires bear Department of Transportation (DOT) prescribed tire identification numbers and are not branded “NA” (Not Adjustable).
• Your Goodyear truck tires have been used only on the vehicle on which they were originally installed according to the vehicle manufacturer’s recommendations.
• Your tires were purchased on or after April 15, 2023.

WHAT IS COVERED AND FOR HOW LONG?
1. FREE TIRE REPLACEMENT — Goodyear truck tires covered by this warranty that become unserviceable due to a covered warranty condition during the first 2/32” (inch) treadwear that have been worn off at the time of adjustment. You pay for mounting, balancing, and any additional services you order at the time of adjustment. You pay for the comparable new Goodyear replacement tire as well as any government-mandated charges.

2. PRORATED TIRE REPLACEMENT — Tires worn beyond the first 2/32” (inch) treadwear that become unserviceable due to a covered warranty condition will be replaced on a prorated basis. You are responsible for mounting, balancing and any additional services you order at the time of adjustment, as well as any taxes and government-mandated charges.

3. TIRES WITH DURASEAL TECHNOLOGY® — SEALANT CREDIT DURING ORIGINAL TREAD* — Failure of the DuraSeal Technology to seal a maximum 1/4” (inch) puncture in the repairable area of the original tread will qualify for a one-time credit during the life of the original tread within four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, $50.00 for both the U.S. and Canada.

4. TIRES WITH DURASEAL TECHNOLOGY — SEALANT CREDIT DURING FIRST RETREAD* — Failure of the DuraSeal Technology to seal a maximum 1/4” (inch) puncture in the repairable area of the tread will qualify for a one-time credit through 100% of the first retread up to four (4) years from the date of the casing DOT serial number or proof of purchase, if available. Sealant credit is based on local currencies in the country where the adjustment takes place, $25.00 for both the U.S. and Canada. All punctures must be repaired at time of retreading for this

Limited Warranty to be honored. If a sealant credit was issued during the original tread life, no other requests for credit will be honored.

*All claim forms submitted for sealant credit must be verified by an authorized Goodyear representative.

HOW WILL THE PRORATED CHARGES BE CALCULATED?
The prorated price will be calculated by multiplying the current Goodyear advertised selling price of the comparable replacement tire, plus an amount equal to the full current Federal Excise Tax (FET — U.S. only) applicable to the comparable new Goodyear replacement tire at the time of adjustment. If the price of the comparable tire is $400.00, the cost to you would be $200.00 plus Federal Excise Tax (U.S. only), mounting, balancing, any other applicable taxes and government-mandated charges.

What is a comparable tire?
A “comparable” new Goodyear tire may be either the same size tire or, in the event that the same size is not available, a tire of the same basic construction and quality with a different sidewall or tread configuration. If a higher priced tire is accepted as replacement, the difference in price will be at an additional charge to you.

Any replacement tire provided pursuant to this warranty will be covered by the Goodyear warranty in effect at the time of replacement.
